Acknowledgment

I would like to express my deep appreciation to all those who have given me the opportunity to complete this industrial report. First of all, I got this opportunity to prepare this training report, I wish to thank **Mrs.Nadeeshika Ruwandi Meddage, Head of the Department of Information Technology, Sri Lanka Advanced Technological Institute in Dehiwala (SLIATE)**. As well as I thank all those who contributed to me for contributing.

By applying for an institutional training, a valuable and productive training is provided. I **National Apprentice and Industrial Training Authority (NAITA)**.

I would like to express my deep sense of gratitude to my respected Project manager Mr. Prasad for his support & cooperation.

Secondly I would like to thanks my close friends & well wishers who were there for me whenever required.

Finally, my special heartiest thank to my parents. They supported and encouragement to me during my training period. And my dear friends who helped me when I had a problem in my industrial training and personally who supported me in numerous ways for the successful completion of this industrial training.

Introduction

Overview introduction

The Higher National Diploma in Information Technology (HNDIT) has been originated by the SLIATE is one of the leading computer Diploma program over Sri Lanka, with a view to produce the mostly needed expertise in the field of Information Technology for both private and public sector enterprises.

The IT courses that are available in the country cater only to a small privileged, a fluent group of students. The purpose of the HNDIT course is to cater to a less privileged, sub urban and rural selection of the student population of the country.

HNDIT is a full time diploma in English medium with 2 ½ years duration and it is the first national level IT diploma conducted in a public institute. HNDIT consists of 06 months continuous industrial training at the end of the 2nd year and it conducts by the NAITA (National Apprentice in Industrial Training Authority).
